

The Story of Hope Hollow...

Hope Hollow is a dream come true...

supporting persons who are struggling with the disease of cancer as our lives have been deeply affected by this disease. Our story begins when Jane's mother died of pancreatic cancer when Jane was ten years old and her aunt (a second mother to her) also died of pancreatic cancer.

When Jane was diagnosed with medullary thyroid cancer in 2007, we received the good news that it appeared to be encapsulated and had not metastasized. In December 2010, Jane was diagnosed with breast cancer. After two surgeries and seven weeks of radiation treatment her prognosis appeared to be very promising, due to early detection.

We have since prayed and spoken our gratitude daily. We are now living that gratitude by offering welcome, hospitality and hope to cancer patients receiving medical treatment and care for their diagnosis of cancer in Columbus, Ohio.

Hope Hollow's mission is to offer lodging, meals, transportation assistance and emotional support... at no cost...to cancer patients and their loved ones, who are financially in need, while on their journey with cancer.

It has been said that "strangers are friends we have yet to meet." In the spirit of caring, we believe that Hope Hollow will help those we serve to feel loved and supported while receiving treatment for their cancer.

We hope to make a positive difference in the lives of those persons we have yet to meet.

in Columbus, Ohio.*

Through the seasons at Hope Hollow

A “Story of Hope . . .

“In 2014 I was diagnosed with chronic lymphocytic leukemia. I soon learned that there was no cure... and that my cancer was unlikely to respond to the only chemotherapy treatment available at the time. As a mother of three young children, I was devastated imagining their lives impacted by losing their mother so early. It seemed like there was no hope.

I began researching and learned of a clinical trial in Columbus, Ohio that was offering patients hope, but I live some 7 hours away in Maryland. I signed up for the trial not knowing how I would be able to make it work. How could I cover the costs of travel and lodging for a clinical trial spanning over 16 months?

It was as if my prayers were answered when I met Jane and Kevin at Hope Hollow and in an instant, I had the most amazing team of support behind me. In addition to providing lodging, I was the recipient of their kindness, grace and love through my darkest days. I am forever grateful for their support and friendship that is truly like no other!

Hope Hollow allowed me to complete the clinical trial and I'm happy to say that I am now in my 6th year of a complete remission!”
